SUMMARY

Results-driven SAP ABAP Consultant with over 1 year of experience in developing and enhancing robust SAP applications. Expertise in ALV reports, BAPIs, enhancements, and data modelling, with strong exposure to RICEF objects. Proven ability to improve system performance, reduce processing time, and deliver scalable technical solutions. Experienced in directly coordinating with business functional teams through one-on-one discussions and on-site interactions to gather requirements and deliver effective solutions.

TECHNICAL SKILLS

Core ABAP:	Classical and Interactive ALV Report, Module Pool, DDIC, OOP Concepts, Debugging, ATC Check
Enhancements	BADI, Customer Exit, User Exit, Implicit/Explicit, BTE
Forms:	Adobe Form, Smartform, SAP Script
Interfaces:	BAPI, RFC, IDOC, Function Module
Modern ABAP:	ODATA + SAP UI5 Integration
Tools & IDEs:	SAP GUI, ADT(Eclipse), Business Application Studio
SAP Modules:	SD, FI, MM, HR, PM, QM

EXPERIENCE

Automatic Infotech Private Limited

Pune, India

Associate Consultant

Aug 2025 – Present

- Developed a custom HR cockpit for employee canteen meal registration, enabling seamless daily booking and efficient data handling; also contributed to backend development using ODATA service for SAP Fiori application.
- Developed an RF application in the WM module for efficient creation of Transfer Orders, improving warehouse processing achieving 40% reduction in manual process of business.
- Implemented Implicit enhancement to validate Purchase Orders during the release process, ensuring data accuracy and adherence to defined business rules.
- Implemented BADI to restrict specific order types during QM notification creation, ensuring correct data entry as per business requirements.
- Implemented BADI for FI-MM integration to update asset transaction date based on invoice posting date rather than goods receipt, ensuring accurate financial posting as per business needs.
- Worked on SAP Script to Adobe Forms migration activity ensuring improved form layout, maintainability, and output quality for FI and SD modules.

Junior Associate Consultant

Feb 2025 - Aug 2025

- Developed shop floor forms using Smartforms for the PM module to support production line operations, enabling efficient data capture and process execution.
- Developed a mass document posting solution for the FI module using BAPI, enabling efficient and automated bulk financial postings.
- Developed a backorder cancellation solution for SD module, for a defined order period using BDC, updating rejection reasons based on business rules and enabling automated email notifications to customers.
- Involved in performance optimization of ABAP programs using ATC and Extended Checks along with runtime analysis (SAT) and SQL trace (ST05), contributing to ~10% reduction in execution time while ensuring code quality.
